COORDINATED DUAL-DEGREE, ACCELERATED, AND SPECIALIZED PROGRAMS

Business, Roy and Diana Vagelos Program in Life

in Life

Let's talk about the University of Pennsylvania. You probably know the big stuff (Ivy League, Philadelphia,¹ Ben Franklin,² smart/interesting people who went here), and you might know the basics (how we have four undergraduate schools: College of Arts and Sciences, Penn Engineering, School of Nursing, Wharton School). But you might not know the most important thing about Penn, so we've put it right here on the first page. OK, it's actually three things. **This is a place where you can do the things that matter to you.**³ Explore your interests, chase your ideas, and find out what drives and excites you. **It's a place where you're free to give everything a try.**⁴ The unexpected or unusual or unique things that lead you to more interesting places. Here, you'll find what inspires you and cast off what doesn't. **And it's a place where you'll be surrounded by a community that is here to support you.**⁵ We're in this together. It's what we do at the University of Pennsylvania.

TABLE OF CONTENTS

- 4-5 Academics at Penn
- 6-7 Penn History, Lore, and Campus Life
- 8-9 Culture of Support at Penn
- 10-11 Philadelphia and the World

TABLE OF CONTEXT

- 4-5 You'll come here because you want to learn. And you will.
- 6-7 But you'll probably end up learning something totally different than you expected. So expect that.
- 8-9 And you won't be alone. There's a massive system of support and guidance to help you get where you're going.
- 10-11 Because you're going to Philadelphia, one of the most important and interesting cities around. And after that, you can go literally anywhere.

TABLE OF TABLES
OUR FAVORITE PLACES TO STUDY

- Quiet tables at the Fisher Fine Arts Library
- All-night tables at Van Pelt Library
- Cozy booths and tables at the Education Commons
- Spreadsheet-table-covered tables at Huntsman Hall
- Tables with Splenda sprinkled on them at Starbucks (at 34th and Walnut or under the Commons)

TABLE OF COMMENTS
BEN FRANKLIN'S BEST QUOTES

- "An ounce of prevention is worth a pound of cure." (1735)
- "Well done is better than well said." (1737)
- "There are no gains without pains." (1745)
- "He that teaches himself, hath a fool for his master." (1745)
- "Lost time is never found again." (1748)
- "Little strokes fell great oaks." (1750)
- "Haste makes waste." (1753)
- "Half the truth is often a great lie." (1758)

TABLE OF CONDUITS
BEST PLACES TO EXPLORE

- The Schuylkill River Trail and Boardwalk**
great for a quick run
- Penn Park**
check out the city skyline
- Center City**
see Rittenhouse Park or Independence Hall
- Woodlands Cemetery**
wooded trails, not as creepy as it sounds
- Locust Walk**
just go straight through campus

TABLE OF CONCERTS
SPRING FLING
HEADLINERS, BY YEAR

- 2019: Miguel
- 2018: The All-American Rejects
- 2017: Zedd
- 2016: Chance the Rapper
- 2015: Kesha
- 2014: David Guetta
- 2013: Tyga
- 2011: Lupe Fiasco
- 2010: Snoop Dogg
- 2009: Akon
- 2008: OK Go
- 1983: "A variety of rock, punk, new wave, and funk acts"

TABLE OF CONDIMENTS
(PHILLY CHEESESTEAK EDITION)

- Cheese—Gold Medal
- Onions—Silver Medal *YOU HAVE TO SAY "WIT"*
- Peppers—Bronze Medal
- Mushrooms—Participation Pin
- Extra Cheese—Good Hustle Award *HURRAH!*

TABLE OF CONTINENTS

- Asia—16,920,000 mi²
- Africa—11,730,000 mi²
- North America—9,460,000 mi²
- South America—6,890,000 mi²
- Antarctica—5,300,000 mi²
- Europe—3,930,000 mi²
- Australia—3,478,200 mi²

THE CONTINENT WHERE THE FEWEST INTERNATIONAL STUDENTS COME FROM

TABLE OF CONSONANTS

- B C D F G H J K L M N P Q R S T V W X Y* Z

THE PATH

ACTUALLY, IT'S NOT REALLY A PATH

You'll come to Penn because you want to do something great. Something big. Something no one has ever done before.

BUT BEFORE EVERY GREAT

there are the great-what-am-I-going-to-do moments of uncertainty and opportunity that drive you to explore all your different academic interests at Penn.

BECAUSE YOU'LL HAVE THE FREEDOM TO EXPLORE WHAT YOU'RE INTERESTED IN.

At some point, you'll have to pick a major, but it starts with picking something that's fundamentally more important. Find something you're interested in. Follow your curiosity. And we know everybody says "find your passion," but find your passion. What starts as an interest in public policy, or sustainability, or global engagement, or arts and culture can lead to infinite possibilities for a meaningful career and a life well lived.

Don't just pick a major. Find what you love and discover what you care about.

BEFORE EVERY CERTAINTY

there are the missteps, mistakes, and disappointments you find as you make strides toward a life of greater significance.

BECAUSE YOU'LL HAVE THE FLEXIBILITY TO TRY SO MANY NEW THINGS.

At Penn, a big part of what you'll do is try. We want you to give yourself permission to try everything that seems interesting and cast off all the things that don't quite fit. We want to help you find your way as you explore the roads that lead to unexpected places and the ones that lead to places that aren't exactly what you thought. Try a class that relates to a major you never thought you'd pursue. See what happens. We'll be here to help along the way.

Your four years at Penn will fly by. Challenge yourself to make the most of them.

Start at **THE COLLEGE OF ARTS AND SCIENCES.** The intellectual crossroads of Penn, where the humanities intersect with the social and natural sciences.

Start at **PENN ENGINEERING** if you're into building, breaking, calculating, testing, coding, and imagining.

- White = #FFFFFF
- Silver = #C0C0C0
- Gray = #808080
- Black = #000000
- Red = #FF0000
- Maroon = #800000

- Olive = #808000
- Lime = #00FF00
- Green = #008000
- Aqua = #00FFFF
- Teal = #008080
- Blue = #0000FF
- Navy = #000080
- Fuchsia = #FF00FF
- Purple = #800080

Handwritten mathematical notes in red ink, including fractions and decimal conversions:

- $1/2 = .5$
- $1/3 = .3333$
- $2/3 = .6666$
- $1/4 = .25$
- $3/4 = .75$
- $1/5 = .2$
- $2/5 = .4$
- $3/5 = .6$
- $4/5 = .8$
- $1/10 = .1$
- $2/10 = .2$
- $3/10 = .3$
- $4/10 = .4$
- $5/10 = .5$
- $6/10 = .6$
- $7/10 = .7$
- $8/10 = .8$
- $9/10 = .9$
- $1/11 = .0909$
- $2/11 = .1818$
- $3/11 = .2727$
- $4/11 = .3636$
- $5/11 = .4545$
- $6/11 = .5454$
- $7/11 = .6363$
- $8/11 = .7272$
- $9/11 = .8181$
- $1/12 = .0833$
- $2/12 = .1666$
- $3/12 = .25$
- $4/12 = .3333$
- $5/12 = .4166$
- $6/12 = .5$
- $7/12 = .5833$
- $8/12 = .6666$
- $9/12 = .75$
- $10/12 = .8333$
- $11/12 = .9166$

BEFORE EVERY FIRST

comes every first-time-you'll-try-this and every second-third-and-fourth-time-still-isn't-the-charm that enable you to uncover new knowledge and new understanding about what matters to you.

BECAUSE YOU'LL HAVE THE RESEARCH OPPORTUNITIES THAT LEAD TO NEW THINKING.

At some universities, you can study knowledge that already exists. At some, you'll put that knowledge into practice. And at Penn, you can create knowledge that the world hasn't seen before.

TRICK QUESTION: YOU CAN ACTUALLY DO ALL THREE!

Start with your big ideas.

Test them through hands-on research. ← CHECK OUT:

Prove them through iteration and trial.

Get them out into the world.

Start again, with your next big idea.

- CENTER FOR UNDERGRADUATE AND RESEARCH FELLOWSHIPS
- WEISS TECH HOUSE
- PRICE DIGITAL HUMANITIES LAB
- NETTER CENTER FOR COMMUNITY PARTNERSHIPS

BEFORE EVERY BIG EXPERIENCE

there's every small moment of enlightenment you find as you explore different disciplines, sample new ideas, and veer in new directions.

BECAUSE YOU'LL BE ABLE TO BRING TOGETHER DIFFERENT SCHOOLS OF THOUGHT.

This is the part that's the very least like a path. Because we know the best ideas come when you veer from the expected direction and find a new way. When concepts from different disciplines collide. When you plunge headlong into the unknown. See what happens when music brushes up against physics, or when healthcare bumps into entrepreneurship. Find out where you'll go when you ask bigger questions and demand better answers.

At Penn, the best thinking happens in the spaces in between. Staying in your lane is not an option.

BEFORE YOU FORGE YOUR OWN PATH, you have to start somewhere.

Start at the **SCHOOL OF NURSING** if you want to advance science, shape policy and practice, and lead the way to a healthier future.

Start at **WHARTON** if you want to use rigorous analysis and responsible leadership to impact the business world.

PERFORMANCE GROUPS AT
PLATT STUDENT PERFORMING
ARTS HOUSE.

FIVE BIG DAYS

CONVOCATION

This is where it starts. At the beginning of your first year, you'll march as you're welcomed to Penn.

HEY DAY

This is the day you realize you've made it. On the last day of class in junior year, students carry canes and put on straw hats and red shirts as they march across campus to celebrate moving up to the senior class.

PENN RELAYS

This is a big day. And quick. It's the nation's oldest and biggest track and field competition. It's been running since 1895, and attracts more than 15,000 athletes each year.

HAHA, RUNNING.

IVY DAY

This is where you'll make history. Each graduating class plants ivy and places a carved stone on one of our buildings.

COMMENCEMENT

This is your graduation day. Yeah, it's the biggest day of them all.

ONE LITTLE THING

OK, the toast thing. So, between the third and fourth quarter of every home football game, we celebrate "a toast to dear old Penn" by throwing pieces of toast onto the field. Penn's student government sells the toast for students to throw and donates the profits to food pantries in the local community.

PRO TIP: SIT TOWARD THE BACK OF THE CROWD TO AVOID FALLING TOAST.

OTHER GREAT THINGS INVENTED IN PHILADELPHIA

- No. 2 Pencil, Hymen Lipman, 1858
- Root Beer, Charles Elmer Hires, 1875
- Revolving Doors, Theophilus van Kannel, 1888
- Bubble Gum, Walter E. Diemer, 1923
- Slinky, Richard T. James, 1943
- Choco Taco, Alan Drazen, 1984

HOUSES THAT WILL INSPIRE YOU

You'll learn here. You'll eat here. You'll do a lot of things here because you'll live here. Which is why our College Houses are more than residence halls; they're living, breathing, metaphorical testaments to the life of the mind you'll live here at Penn, each with a different cultural, academic, professional, or social focus.

LOOK THEM UP IF THEY SOUND INTERESTING.

W.E.B. DU BOIS

AND MAYBE GIVE YOU THE CHILLS

Charles Addams, the writer and cartoonist who created the Addams Family, was a Penn alumnus. College Hall, the oldest building on our campus, may have been the inspiration for the spooky mansion they lived in.

YOU'LL FIT RIGHT IN HERE

We need thinkers like you at Penn. And we also need thinkers who aren't anything like you. And thinkers who are unlike anyone anywhere ever before. This is a community of people from all over the world, who each bring something unique to campus. So bring it. Bring you. Contribute. Become a part of a campus where the only thing missing is whatever it is you will add.

SONARI CHIDI
Making films that break boundaries.

JACKIE STOKES
Bringing engineering expertise to the military.

SONA DADHANIA
Driving new thinking in nanotech.

YOU'LL GET WAY OUT THERE

You're probably thinking, "Whoa, Penn sounds amazing! I will never want to leave that place!" And you're wrong, because guess what's out there? That's right, the world. Through Penn Global, you could have the opportunity to work in hospitals in Nigeria,¹ teach English to monks in Nepal,² or help build a social entrepreneurship nonprofit in Mexico.³

Like Tochi Awachie did.

Like Alice Liu did.

Like Pablo Golac did.

HERE'S YOU.

Here's academic advisors, who'll help get you where you need to be.

Here's the beginning of your network of support at Penn.

Here's the interesting people you'll meet in class and around campus.

Here's professors you'll work with, learn from, and get inspired by.

Here's financial aid counselors, who are here to help, so you can focus on your education.

IT'S THE COMMUNITY OF SUPPORT WE SHARE

THAT ENABLES US TO DO FUN THINGS LIKE THESE.

YOU WILL FIND A WAY, OR YOU WILL DANCE ONE.

The Dance Arts Council at Penn supports 12 student-run dance groups that showcase many different dance styles, from Bellydance to Ballet to Bollywood.

AND LOTS OF OTHERS THAT DON'T BEGIN WITH "D."

YOU WILL FIND A WAY, OR YOU WILL WRITE ONE. ABOUT FOOD.

It's *Penn Appétit!*—Penn's innovative, student-run food magazine. They publish one print issue each semester, along with daily digital content. Yeah, they write about latte art! Yeah, they write about Philly's freshest fish spots! Yeah, they can tell you what poke is!

YOU WILL FIND A WAY, OR YOU WILL BUILD ONE.

It's Engineers Without Borders! And they take on engineering projects that help improve lives all over the world. In Cameroon, they worked with local villagers to improve an aged, inefficient water distribution system. It's engineers using engineering to engineer a better world.

YOU WILL FIND A WAY, OR YOU WILL FIND LIKE 400 OF THEM.

We left out a ton of the clubs and activities at Penn, but take our word for it that there are enough academic, cultural, environmental, performing arts, religious, media, and social opportunities for you to get into. Maybe check out the website?

WE ARE COMMITTED TO YOUR SUCCESS AT PENN

FIRST, YOU'LL DO COOL STUFF LIKE THIS

SO WE MAKE SURE YOU CAN AFFORD IT.

98%

of financial aid applicants from families with combined income and assets of \$200,000 or less received assistance.

WE'LL MEET DEMONSTRATED NEED FOR FOUR YEARS

for all admitted students receiving aid.

OR UP TO EIGHT SEMESTERS

YOUR EDUCATION. OUR COMMITMENT.

Admitted students whose family income and assets are

LESS THAN \$65,000

receive a combination of grants and work-study funding that covers tuition, room, and board.

We're need-blind for citizens and permanent residents of the U.S., Canada, and Mexico.

For more information about international financial aid, please visit the Admissions website.

WE'LL FOCUS ON HELPING YOU.

YOU FOCUS ON GETTING THE MOST OUT OF IT.

HERE'S YOU, AND THE THINGS YOU'LL DO.

OBVIOUSLY, THESE PEOPLE AREN'T "YOU" YOU, BUT THESE ARE MAYBE THE KIND OF THINGS YOU'LL DO?

MONIQUE PÉAN, C '03

When Monique graduated with a degree in philosophy, politics, and economics (PPE), she headed for the financial sector and a job at Goldman Sachs. But she soon saw an opportunity to apply her business acumen to her passion for making jewelry and turned it into a career. Drawing on the interdisciplinary perspectives she honed at Penn, she founded a now-sought-after fine jewelry company in Manhattan that implements environmentally sustainable production models, and uses her talents to support philanthropic efforts.

ANIL CHITRAPU, C '16

As a biology major, Anil assumed med school would be the next step after graduating. But after becoming the marketing and musical director of Penn Masala, the world's first South Asian a cappella group, he realized he was more interested in business than science. He became COO of Soceana, an online platform for social good, and led his team to the finals of the Wharton Business Plan Competition. And now he does marketing for SeatGeek in New York City, and still sings on the side.

KATLYN GRASSO, W '15

In her first year at Penn, Katlyn worked at a startup that empowered women to run for public office. By junior year, she launched GenHERation, a network where young women and companies connect. She was soon accepted into Penn's entrepreneurship incubator: the Venture Initiation Program. Then, in 2015, Katlyn won the President's Engagement Prize, with \$150,000 to further develop GenHERation. Since she graduated, GenHERation has reached more than 106,000 young women and hosted 100 events across North America.

THEN, YOU'LL GO ON TO DO EVEN BIGGER THINGS LIKE THIS.

LET US KNOW IF YOU FEEL LIKE WE'RE
NAME-CHECKING THIS GUY TOO MUCH.

EXCEPT
YOU
CAN GET
INVOLVED
IN IT.

Ben Franklin used to talk about “an inclination, joined with an ability to serve mankind.” And that’s just what we’re in Philadelphia to do. At Penn, you can weave civic action and awareness into your studies and your life.

In the **Robert A. Fox Leadership Program**, you’ll gain hands-on leadership experience and connect with successful leaders, including Penn alumni, senior faculty, and administrators.

At **Civic House**, you’ll engage with the community through social justice education, training, and workshops.

SO YOU’LL BE READY TO
CONTINUE A LIFE OF SERVICE
IN THE COMMUNITIES YOU
INHABIT AND THE WORLD
YOU EXPLORE.

OH, PHILA
IT’S JUST

SO YOU’LL HAVE A SENSE OF YOUR
PLACE IN THE CEASELESS MARCH
FORWARD – SEEING THAT WHAT STARTED
YEARS AGO CONTINUES WITH YOU.

EXCEPT
YOU CAN
BE A PART
OF HISTORY
IN IT.

Philadelphia was founded in 1682, about a hundred years before America existed. This city was built by revolutionary thinkers who said no to the status quo and refused to look for excuses or ask for directions. This city defied hegemony and defined what it meant to be an American. So maybe spend some time looking around.

The National Historical Park, called “America’s Most Historic Square Mile,” is home to the Liberty Bell, Independence Hall, all the greats. It’s the perfect place for people who hold truths to be self-evident.

Philadelphia occupies the traditional homelands of the **Lenni-Lenape**. Penn acknowledges and expresses gratitude to the indigenous people of this land, past and present, for the opportunity to live and learn on Lenapehoking, land of the Lenape.

SO YOU'LL HAVE A GREATER UNDERSTANDING OF THE ROLE OF ART AND BEAUTY IN A WELL-LIVED LIFE.

Every single page of this book could be about the cultural experience you'll have in the city of Philadelphia, but they made us promise that most of the content in here should be about Penn. You'll find museums and theaters and the sorts of things you'd expect in a city this size, but some of the most interesting art and culture in Philadelphia is found in the interstitial spaces: performances, installations, murals, and sculpture in unexpected areas.

Philadelphia's **Magic Gardens** is a half-a-city-block installation of found objects by mosaicist Isaiah Zagar: bicycle wheels, Latin American sculptures, and hand-made tiles and mirrors everywhere.

The Shofuso Japanese House and Garden, on the banks of the Schuylkill River, is one of the best (and most overlooked) Japanese gardens in North America.

There's no place in the world like the **Mütter Museum**, a space dedicated to showcasing medical oddities, including Albert Einstein's brain, if you need some extra inspiration.

PHILADELPHIA? IT'S A CITY.

EXCEPT YOU CAN EXPERIENCE CULTURE IN IT.

EXCEPT YOU CAN LEARN IN IT.

There's something about getting an education in a living, breathing city that makes us want to ascribe human characteristics to geographic locations. Cities offer professional and research opportunities you won't find in smaller communities. This is where diverse people and a saturation of experiences come together. Cities like Philadelphia are where ideas are born.

At **United Community Clinic**, nursing students provide physical exams, disease screening, and drug and alcohol counseling to underserved populations.

Penn Engineering students run **CommuniTech**, which supplies computers and teaches technology skills to neighborhoods in need.

SO YOU'LL BECOME A CITIZEN OF THE CITY AND OF THE WORLD, AND BECOME MORE CONNECTED TO THE PEOPLE WHO POPULATE THESE SPACES.

We put this on the front and the back because majors are major here. Minors are major, too (they're not majors though).

COLLEGE OF ARTS AND SCIENCES BACHELOR OF ARTS

Africana Studies • Ancient History • Anthropology • Architecture • Biochemistry • Neuroscience • Biology • Biophysics • Chemistry • Cinema and Media Studies • Classical Studies • Cognitive Science • Communication • Comparative Literature and Theory • Criminology • Design • Earth Science • East Asian Area Studies • East Asian Languages and Civilizations • Economics • English • Environmental Studies • Fine Arts • French and Francophone Studies • Gender, Sexuality and Women's Studies • German • Health and Societies • Hispanic Studies • History • History of Art • Individualized Major • International Relations • Italian Studies • Jewish Studies • Latin American and Latino Studies • Linguistics • Logic, Information and Computation • Mathematical Economics • Mathematics • Modern Middle Eastern Studies • Music • Near Eastern Languages and Civilizations • Philosophy • Philosophy, Politics and Economics • Physics and Astronomy • Political Science • Psychology • Religious Studies • Romance Languages • Russian and Eastern European Studies • Science, Technology and Society • Sociology • South Asia Studies • Theatre Arts • Urban Studies • Visual Studies

SCHOOL OF ENGINEERING AND APPLIED SCIENCE BACHELOR OF SCIENCE IN ENGINEERING

Bioengineering • Chemical and Biomolecular Engineering • Computer Engineering • Computer Science • Digital Media Design • Electrical Engineering • Materials Science and Engineering • Mechanical Engineering and Applied Mechanics • Networked and Social Systems Engineering • Systems Science and Engineering

BACHELOR OF APPLIED SCIENCE

Biomedical Science • Computer Science • Individualized

A full list of minors is available on the Admissions website.

SCHOOL OF NURSING BACHELOR OF SCIENCE IN NURSING

Nutrition Major with the College of Arts and Sciences

THE WHARTON SCHOOL BACHELOR OF SCIENCE IN ECONOMICS

Accounting • Actuarial Science • Behavioral Economics • Business Analytics • Business Economics and Public Policy • Environmental Policy and Management • Finance • Health Care Management and Policy • Legal Studies and Business Ethics • Management (Specializations in Entrepreneurship and Innovation, Multinational Management, Organizational Effectiveness, Strategic Management) • Marketing • Marketing and Communication • Marketing and Operations Management • Operations, Information and Decisions (Tracks in Decision Processes, Information Systems, and Operations Management/Management Science) • Real Estate • Retailing • Social Impact and Responsibility • Statistics • Individualized

COORDINATED DUAL-DEGREE, ACCELERATED, AND SPECIALIZED PROGRAMS

College of Arts and Sciences and the Wharton School (Huntsman Program in International Studies and Business, Roy and Diana Vagelos Program in Life Sciences and Management) • College of Arts and Sciences and Penn Engineering (Vagelos Integrated Program in Energy Research) • College of Arts and Sciences and the School of Dental Medicine (Seven-Year Bio-Dental Program) • School of Nursing and the Wharton School (Nursing and Health Care Management) • Penn Engineering and the Wharton School (Jerome Fisher Program in Management and Technology) • Penn Engineering (Digital Media Design, the Rajendra and Neera Singh Program in Networked and Social Systems Engineering)

INTERSCHOOL MINORS

Actuarial Mathematics • American Public Policy • Neuroscience and Health Services Management • Consumer Psychology • Landscape Studies • Legal Studies and History • Nutrition • Sustainability and Environmental Management • Urban Education • Urban Real Estate and Development

HEY, YOU LOOK LIKE YOU PAY ATTENTION TO DETAILS AND ENJOY FUN!

GO DO THIS:

- Take the number of slices in the bread illustration
- Add the number of dollar signs on pages 8–9
- Subtract the number of “big days”
- Multiply by the number next to the girl with the camera
- Divide by the number of countries mentioned on page 7
- Add the number of the year Snoop Dogg headlined Spring Fling
- Subtract the number of the year Chance the Rapper did
- Put the result into the box at the top of the page with the Comcast Center

Cool, now the book's finished.
